PROJECTS

Heaven's Kitchen website

Aug '24 — Oct '24

- Developed a dynamic food ordering website with dedicated panels for admins and chefs.
- The admin panel includes features for sales tracking, customer feedback management, and menu updates, while the chef panel enables real-time order tracking and dish availability updates.
- The platform ensures seamless coordination between customers, chefs, and administrators for efficient order management.

Quizzel Quiz Game Website

Feb '25 — Apr '25

- Developed an interactive quiz platform featuring user authentication, category selection, and dynamic scoring.
- Implemented real-time feedback and a live auto-refreshing leaderboard tracking top 10 players.
- Designed a reward system based on performance, stored in a relational database with 4 tables.
- Built a secure admin panel to manage users, categories, and questions, with registration analytics.
- Ensured full responsiveness across devices.
- Key Achievement: Integrated dynamic trophy rewards and real-time updates without page reloads.
